

## TOM EASTMAN ENTHUSIASTIC

SAYS ELLENDALE IS SURE TO  
BECOME A CAMP OF LARGE  
PROPORTIONS.

Tom Eastman was an arrival in Tonopah yesterday from Ellendale, where he is interested in a lease. He says that the camp is getting along nicely and promises to become quite lively within a very short time or just as soon as the leasers get down to work. He reports that operations on the Clifford property is confined to the extraction of high grade ore. No effort is being made to rush matters, the owners doing most of the work themselves. At this time, Mr. Eastman states, there are somewhere in the neighborhood of twenty-five sacks of ore on the dump, valued around \$1500 per sack.

According to Mr. Eastman, the report is current in Ellendale that a shipment will be made in the near future, which will probably amount to \$75,000.

Mr. Eastman has a lease 1800 feet from the main strike and expects to open up a body of ore. He and his associates have prospected their block of ground to some extent and are encouraged by the showing disclosed. As soon as he returns to the camp, which will be the matter of a day or two, operations on the lease will begin.

"I have every reason to believe that Ellendale will make good," said Mr. Eastman, "the showing there is without doubt the best I have ever seen in southern Nevada and I am acquainted with all of the camps. It is being shown from day to day that the mineral zone is much more extensive than at first supposed. Many people were of the opinion that the new district would be characterized by but one property, but later developments have proven that the values might be expected to be quite generally distributed."

"The strike on the Cornforth lease shows that the lead is a strong one, carrying values at least for a distance of 1200 feet. Before I left camp another find had been made still further on. Just how rich it is, however, I am not in a position to say as the find was made just as I was leaving. I do not know either who the owner of the lease is, at least I have forgotten his name."

"Quite a camp has sprung up. Business houses are being erected as fast as lumber can be obtained and it looks as if Ellendale will resolve itself into a good-sized, booming camp before long."

"Outside capital is coming in and looking thoroughly over the district. Several excellent offers have been made to the operators there, but each has been turned down. You may look for big things in our section before long, too."

## DISCUSS NIGHT TRAIN SERVICE

RAILROAD OFFICIALS ARRIVE IN  
RENO ON WAY TO CARSON  
FOR HEARING.

RENO, June 26.—W. D. Forster, traffic manager of the Tonopah and Goldfield railroad, and H. R. Hanlin, general superintendent of the Tonopah and Goldfield, are in the city on business connected with their road, and tomorrow Mr. Hanlin will go to Carson to attend the meeting of the Nevada railroad commission, which will again discuss the feasibility of putting on a night train between this city and the two southern cities, Tonopah and Goldfield. Mr. Forster states that he will not go to Carson as he has nothing to do with that matter, although he believes there should be a night train across the desert.

Mr. E. W. Clapp, division freight and passenger agent of the Southern Pacific company, will go to Carson and attend the session for the Southern Pacific. He will give the railroad commissioners the opinion of the Southern Pacific in regard to the proposed night desert service. Superintendent Manson was to have represented the Southern Pacific at the hearing but will not be able to attend it.

Mr. Foster states that the rush into Ellendale is still going on and at the present time there must be at least 500 people in the camp. He also states that business is picking up in all the southern towns and that he looks for much prosperity in that portion of the state this summer.

## LIKE A DREAM WERE THE STORIES TOLD

Zeb Kendall started the ball rolling. He said to a crowd in the Nevada Club that he had read somewhere if the men in the sun were larger in proportion to the men who inhabit this terrestrial hemisphere, as the sun was larger than the earth, they would be in the neighborhood of 600 feet tall and weigh several tons.

"Well," said another who glanced in the direction of the roulette wheel, "if that is the case and there is any gambling allowed up there they must use grindstone for checks."

"I'd rather be here," said another. "If the price of ham and eggs is in the same proportion, a man would have a devil of a time digging up the price."

It went on that way for quite a while, but was brought to an abrupt ending when some one said that all the rounders had been making a winning and that it was reported the hop joint had been blown up. All the pipes were put out.

## LARGE SUM SENT TO CONTROLLER BY TREASURER

NYE COUNTY SENDS TO STATE  
ITS PROPORTION OF  
TAXES.

Yesterday County Treasurer Frank R. Mannix mailed to the state controller, Nye's proportion of the taxes for the half-year ending June 17th, amounting to \$16,349.31. Of that amount, \$12,244.60 represented the sum due the state from the second installment of taxes collected in this county. The remainder came from various sources.

Mr. Mannix, as county treasurer of Nye county, is perhaps under a heavier bond than any other official in the state under either county or state government, being required to furnish sureties to the amount of \$200,000 for the faithful performance of his duties. As it is, Mr. Mannix had little trouble in raising the amount; in fact, his sureties represent \$255,000, and it is said to be the strongest bond ever given by a county official in this county.

Under the law passed at the last session of the legislature, surety companies doing business in this state must have on deposit with the state controller an amount represented by 5 per cent of their capital stock. The effect of the law has been to drive the surety companies from the state, which is a matter of little regret. The bonds now furnished by the officers of governments are of the highest order.
